REFERENC LISTA

INVESTOR Purchaser PROJECT	Project Title and Tzpe of Works	Year
JKP Vodovod Kikinda	Production and installation of aeration rotors L = 8m N = 37KW, 4 pcs	2021.
JKP "Drugi oktobar" Vršac	Reconstruction of the pump station with worm pumps: Disassembly of equipment, service of gear motors, upper and lower bearings, repair of the pump body, installation of equipment, installation of lubrication systems and commissioning of worm pumps.	2021.

INVESTOR Purchaser PROJECT	Project Title and Tzpe of Works	Year
JKP Vodovod Vranje/ Strabag AD Beograd	Execution of mechanical works on the facility WWTP Vranje Installation and testing of equipment Equipment of pumping stations with submersible pumps Equipment of coarse and fine automatic gratings Penstocks Suction sandblasting equipment Primary longitudinal precipitator equipment Equipment of aeration pools with deep aeration Equipment of final circular precipitators UV disinfection equipment for purified water Technical water preparation equipment Gravity and belt thickener equipment Chemical preparation and storage equipment Sludge dehydration equipment, centrifuges Digester equipment Gas tank Gas burning torch equipment LPG equipment Gas generators Heating equipment for the administrative building Fittings on pipelines Production and installation of equipment Production and installation of pipelines, stainless materials Production and installation of fittings on pipelines	2020-2021

<p><i>Ludwig Pfeiffer</i> Germany, Kancelarija u Banjoj Luci</p>	<p>Reconstruction of WWTP Trebinje plant Dismantling, reconstruction and installation of equipment Pump station equipment with screw pumps Aerated sand-oil equipment Circular precipitator equipment (primary and final) Construction and installation of pipelines with fittings Automatic grille equipment Delivery and installation of penstocks</p>	<p>2019-2020.</p>
--	---	-------------------

<p>INVESTOR Purchaser PROJECT</p>	<p>Project Title and Tzpe of Works</p>	<p>godina realizacije</p>
<p>JKP Zlatibor/Hidromonta <i>ža Ljubljana-Beohidro</i> <i>Beograd</i></p>	<p>Execution of mechanical works on the facility WWTP Zlatibor Installation and testing of process hydromechanical equipment Equipment of pumping stations with submersible pumps Compact sandblasting equipment Automatic grille equipment Equipment for washing and pressing waste from the ground Septic tank receiving device Compressed air blower equipment Selector equipment SBR pool equipment with deep aeration Clarified water decanting equipment UV disinfection equipment Chemical storage and preparation equipment Sludge dehydration equipment, centrifuge Process water preparation equipment Equipment Sludge tank equipment Phosphorus removal equipment Filters to remove unpleasant odors Supporting locksmith equipment, production and installation locksmith equipment, production and installation</p>	<p>2019.-2020.</p>
<p>JKP Vodovod Leskovac/ SADE <i>Francuska Ogranak u</i> <i>Beogradu</i></p>	<p>Execution of mechanical works on the facility WWTP Leskovac, Sludge and gas line Installation and restoration of process equipment: Equipment of pumping stations with submersible and helical pumps Equipment of gravity and belt thickeners Chemical preparation and storage equipment Digester equipment including pipelines and fittings Gas burning equipment, torches Gas tank equipment LPG storage and transport equipment LPG storage and transport equipment Boiler room equipment HVAC installations</p>	<p>2019-2020.</p>

	All pipelines and fittings
